

Five Days / In Person

Petroleum Projects Economics and Risk Analysis

Appraise, model and stress-test oil and gas investments.

Kuala Lumpur, Malaysia

18-22 January 2027

Houston, Texas, USA

15-19 March 2027

US$5,900 per delegate, plus applicable tax

7-25 Delegates per Session

Course Overview

Petroleum Projects Economics and Risk Analysis is a five-day programme that gives professionals the knowledge and practical skills to evaluate, finance and manage risk in oil and gas projects. It blends economic theory with real-world applications across petroleum investment appraisal, financial modelling and risk analysis, relevant to upstream, downstream and integrated projects.

You will work through petroleum investment appraisal and discounted cash flow, NPV and IRR, fiscal systems, financial modelling, sensitivity and scenario analysis, decision trees and Monte Carlo simulation, led by an expert facilitator.

Course Objectives

- Understand the economics of petroleum projects.
- Apply financial tools to appraisal and decision-making.
- Analyse and manage project risks.
- Evaluate the impact of fiscal systems and market dynamics.
- Make informed investment decisions in volatile markets.

Practical Skills You Will Gain

- Apply NPV, IRR and other investment criteria.
- Build and use petroleum project financial models.
- Conduct sensitivity and scenario analysis.
- Implement risk management strategies.
- Evaluate project viability under uncertainty.

Who Should Attend

- Petroleum economists
- Project managers and engineers
- Financial analysts
- Asset managers
- Business development managers
- Investment decision-makers
- Senior oil and gas executives

Relevant to upstream oil and gas, downstream and refining, and integrated petroleum operations.

Training Methodology and Benefits

- Expert-led discussion, industry case studies and financial modelling exercises.
- Scenario analysis and practical tools to manage project risks and uncertainties.
- Insights into global oil and gas markets and networking with industry peers.

Course Modules

Twelve modules cover investment fundamentals, financial modelling and decisions under uncertainty.

01 Investment Appraisal

01	Petroleum Industry Economics and Investment Fundamentals
02	Time Value of Money and Discounted Cash Flow Analysis

Booking Terms

Booking and Payment

Train Develop Empower issues invoices and collects payment. Payment by the invoice due date reserves your seats. The fee is subject to applicable tax, and the client is responsible for bank charges. We will confirm the session in writing.

If We Cancel or Postpone

If we cancel, we refund the full training fee paid to the original payer. If we postpone or materially change the session, the payer can choose a full training-fee refund or transfer to the revised session. Our target is to initiate refunds within 10 business days.

If You Cancel

Send written notice to iht@traindevelopempower.com. Before we confirm the session in writing, the full training fee is refundable. After confirmation, the refund is 100% with 14 or more calendar days' notice, 50% with 7-13 days' notice, and 0% with fewer than 7 days' notice or for a no-show. Days are counted before the session starts, using venue-local dates. Applicable rights are unaffected.

Substitutions and Group Bookings

A colleague from the same organisation may take your seat at no charge with at least two business days' written notice. If cancellations leave fewer than four paying delegates, the complimentary seat no longer applies. We will agree the revised booking with the client before adjusting the invoice or refund.

Travel and Visas

Wait for written confirmation before booking non-refundable travel. Delegates are responsible for visa and travel arrangements and associated costs. We do not cover costs arising from visa refusal or travel disruption; the standard client cancellation terms apply.

What's Included

The training fee includes training materials, a certificate, morning and afternoon coffee breaks, and one buffet lunch per training day.

Daily Timetable

We will share the daily timetable and joining instructions once the payment is received.
